

Saturday, October 23, 2021

Unfortunately, due to recent positive cases, we must restrict visitation until at least Monday, 11/1/21, and will continue to test residents and staff until we have no further positives and are beyond the incubation period.

The visitation restriction applies to all portions of assisted and independent living. Please do not enter the building until further notice. Residents should not leave the building except for medical necessity, such as doctor's appointments.

You can contact me with any questions.
